

DATA SHEET

Cool-base, Cool-plate, Cool-sat

General Description

The Cool-base, Cool-plate, and Cool-sat are related Active Thermal Management equipment coolers, designed to boost existing (but insufficient) ventilation for one audio or video component with ventilation openings in the bottom cover. Both are installed by placing them below overheated equipment; both blow fresh air up into the amplifier, receiver, etc., reducing their internal temperature.

Not for use in sealed enclosures.

Features

- ✍ Extremely quiet
- ✍ Covers a wide range of applications; solves a wide range of overheating problems
- ✍ Very low power consumption
- ✍ Rated for continuous operation
